add me as collaborator

Git tasks for exercise

- use git clone to make a copy of the repository I have set up:

```
git clone https://github.com/davealbanyancode/FEWDGit.git
```

- Open folder in VSCode and make changes to NavExercise.css
 - add your changes to the repository.
- Open github and create a repository for this exercise.
- In VSCode – set up remote to point to the new repository on github.
- Synchronize.
- Add davealbanyancode as a collaborator.
